THE EVENT

About the Event

Anytime AI is bringing together practicing personal injury and complex litigation attorneys for a full-day, in-person conference — substantive content, candid conversation, and high-value networking. This isn't a volume-play legal-tech expo. It's built for the depth-over-volume litigators who handle serious, high-stakes cases — and the vendors who serve them. The full program will also be livestreamed on Zoom, extending its reach beyond the room.

Why Your Brand Belongs Here

A Highly Qualified Audience

Attendees are practicing PI and complex litigation attorneys and firm decision-makers — not general legal-tech browsers.

Real Buying Power in the Room

You're in front of the people who actually sign vendor contracts for case management, expert services, and litigation support.

First-Year Founding Partner Advantage

Early sponsors get first choice of placement and visibility before this becomes the annual fixture attorneys expect to see you at.
